

I am writing to let you know that K-Love is a very important station. Not only does it get me through my work day with its uplifting message and music, but the station is involved with the community both locally and abroad, with projects that affect all of us - hunger, poverty, healthcare etc. K-Love keeps our community informed of these issues and how and where people can become involved. The loss of this service alone would impact our local community and on a larger scale, our nation and the world. I urge you to not to allow LPFM to take priority over the vital programming that K-Love provides.

Thank you.
